GLOBAL MEDIUM TERM NOTE PROGRAMME

This second prospectus supplement (the "**Supplement**") which has obtained approval number n°20-502 on 12 October 2020 from the *Autorité des marchés financiers* (the "**AMF**") is supplemental to and must be read in conjunction with the base prospectus dated 19 August 2020 which has been granted approval number n°20-415 on 19 August 2020 by the AMF (the "**Base Prospectus**") as supplemented by a first supplement thereto dated 3 September 2020 which has been granted approval number n°20-438 on 3 September 2020 by the AMF, prepared by the *Caisse d'Amortissement de la Dette Sociale* ("**CADES**" or the "**Issuer**") with respect to the Euro 65,000,000,000 Global Medium Term Note Programme (the "**Programme**"). Terms defined in the Base Prospectus have the same meaning when used in this Supplement.

The Base Prospectus as supplemented constitutes a base prospectus for the purposes of Article 8 of Regulation (EU) 2017/1129 of the European Parliament and of the European Council of 14 June 2017 (the "**Prospectus Regulation**"). This Supplement has been prepared in accordance with Article 23 of the Prospectus Regulation. Application has been made for approval of this Supplement to the AMF in its capacity as competent authority under the Prospectus Regulation.

This Supplement has been produced for the purposes of incorporating the unaudited¹ semi-annual financial statements of the Issuer as at and for the period ended 30 June 2020, updating the Description of Issuer section and the General Information section of the Base Prospectus.

Save as disclosed in this Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus which is material in the context of the Programme since the publication of the Base Prospectus. To the extent that there is any inconsistency between (a) any statement in this Supplement and (b) any other statement in the Base Prospectus, the statements in this Supplement will prevail.

Copies of the Base Prospectus and this Supplement will be available, during usual business hours on any weekday (Saturdays and public holidays excepted), for inspection by Noteholders at the specified offices of the Fiscal Agent and will be available without charge (i) on the website of the AMF (www.amf-france.org) and (ii) on the website of the Issuer (<https://www.cades.fr/index.php/en/financial-information/reference-documents>).

To the extent applicable and in accordance with Article 23.2 of the Prospectus Regulation, investors who have already agreed to purchase or subscribe for Notes to be issued under the Programme before this Supplement is published, have the right, exercisable within two working days after the publication of this Supplement, to withdraw their acceptances, provided that the significant new factor, material mistake or material inaccuracy referred to in this Supplement arose or was noted before the closing of the offer period or the delivery of the Notes, whichever occurs first. That offer period may be extended by the Issuer. This right to withdrawal shall expire by close of business on 14 October 2020. Investors may contact the Authorised Offerors should they wish to exercise the right to withdrawal.

¹ The unaudited semi-annual financial statements have been subject to a limited review by KPMG Audit.

Statutory auditor's review report on the half-yearly financial statements

Period from January 1st to June 30th, 2020

Ladies and Gentlemen,

In compliance with the assignment entrusted to us by the Board of Directors and in accordance with the requirements of article L. 451-1-2 III of the French Monetary and Financial Code ("*Code monétaire et financier*"), we hereby report to you on:

- the limited review of the accompanying half-yearly financial statements of CADES, for the period from January 1st to June 30th 2020,
- the verification of the information presented in the half-yearly management report.

These condensed half-yearly financial statements are the responsibility of the "Agent Comptable de la CADES" on October 7th 2020 on the basis of the information available at that date in the evolving context of the crisis related to Covid-19 and difficulties in understanding its implications and future prospects in accordance with the "Plan Comptable des Etablissements de Crédit", which applies to CADES by reason of notice no. 99-04 of the Conseil National de la Comptabilité. Our responsibility is to express a conclusion on these financial statements based on our review.

I. Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France. A limited review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying half-yearly financial statements do not give a true and fair view of the assets and liabilities and of the financial position of CADES as at June 30th, 2020 and of the results of its operations for the half-year ended in accordance with the "Plan Comptable des Etablissements

de Crédit”, which applies to CADES by reason of notice no. 99-04 of the Conseil National de la Comptabilité.

Without qualifying our opinion, we draw your attention to the matter set out in paragraph 4 of the accounting principles and methods which specifies :

- CRDS revenues and CSG revenues recorded in the accounts are based on notifications sent to CADES by ACOSS and the General Directorate of Public Finance (DGFIP), which are the collecting agencies;
- For the half-yearly statement, since CADES does not receive any specific notifications from collection agencies, CADES estimates accrued income based on the income notified in July, and receivables, provisions, and credit notes relating to the CRDS and CSG are calculated on the same basis as for the previous annual statement;
- Following the Covid 19 health crisis, CADES noted a divergence between the income and collections notified by ACOSS as of March 2020. In accordance with the accruals principle application, CADES recognized an additional receivable as of June 30, 2020 on the basis of ACOSS' monthly notifications and estimated a provision for impairment of this additional receivable.

II. Specific verification

We have also verified the information presented in the half-yearly management report on the half-yearly financial statements subject to our review. We have no matters to report as to its fair presentation and consistency with the half-yearly financial statements.

Net cash flow for the period		17,679	3,599	793

The cash flow statement takes into account the following items:

- A – net cash from (used in) banking activities

This is net banking income (debts plus income from derivatives and cash instruments) less income and expenses with no effect on the cash position (provisions, amortisation of issuance and redemption premiums, accrued interest, revaluation of index-linked bonds, etc.).

- B – net cash from (used in) operating activities

This is the operating profit or loss (mainly income from CRDS and CSG, social levies on income from property and investments and from the FRR) less income and expenses with no effect on the cash position (accrued income or deferred expenses).

- C – net cash from (used in) banking and operating activities

This consists of net cash from (used in) banking and operating activities (C = A + B).

- D – net cash from (used in) financing activities

These are the cash flows resulting from debt issuance and debt repayment during the period.

- E – social security debt assumed

Social security debt assumed represents the disbursements made during the period by CADES in respect of debt assumed from social security funding organisations.

The net change in cash and cash equivalents reflects the following cash flows:

- net cash from (used in) banking and operating activities (C);
- net cash from (used in) financing activities (D); and
- social security debt assumed (E).

NOTES TO THE FINANCIAL STATEMENTS

HIGHLIGHTS OF THE FIRST HALF OF 2020

- **Health crisis related to COVID-19**

Over the six months to 30 June 2020, CADES deployed all available resources to maintain its activities in the context of the COVID-19 health crisis and took the necessary measures to protect the health of its employees and other stakeholders. It strove in particular to implement the most appropriate measures and initiatives needed to pursue its business, in accordance with government decisions.

It has fully maintained and applied its internal control and IT security procedures throughout the crisis. The solutions it has introduced meet all requirements as regards procedural security and transaction reliability.

The health crisis has impacted the amount of CRDS and CSG revenue, mainly on wages and salaries, because of the extensive use of reduced working hours (see Note 12 *et seq.*). Indeed, it has obliged many companies to temporarily lay off their employees.

- **Social security debts assumed**

No assumption of social security debt was carried out in the first half of 2020.

The 2020 Social Security Finance Act No. 2019-1446 of 24 December 2019 cancelled the assumption of ACOSS' residual cumulative debt of €15 billion as well as the increase in the CSG allocated to CADES by the 2019 Social Security Finance Act.

- **Financing transactions**

- **Issues (excluding commercial paper)**

CADES borrowed €3.99 billion:

- four issues made under the French programme (two in EUR, one in USD and one in CNY) for an amount of €1.22 billion;
- one issue made under the UK programme in USD for an amount of €2.77 billion.

- **Redemptions (excluding commercial paper)**

CADES reimbursed €7.13 billion at maturity:

- one issue made under the French programme for an amount of €4.25 billion;
- two issues made under the UK programme in USD for an amount of €2.88 billion.

- **Credit lines**

Commitments received as at 30 June 2020 comprise:

- five activation agreements for credit lines enabling CADES to add funds directly to its euro-denominated deposit account held with Banque de France, totalling €1.2 billion and cancellable by the counterparties at 15 to 30 days' notice.

ACCOUNTING POLICIES AND METHODS

1. Basis of valuation and presentation

The accounting policies adopted by CADES meet two requirements.

Given that the activity of CADES is essentially financial, the financial statements are prepared in accordance with accounting regulations applicable to credit institutions and financial institutions as well as with generally accepted accounting principles in France. In particular, CADES has applied the accrual concept and the prudence concept.

The presentation of the financial statements complies with Regulation No. 2014-07 of 26 November 2014 issued by the French Accounting Standards Authority (*Autorité des Normes Comptables – ANC*) relating to the financial statements of banking sector companies. In its opinion CNC 99-04, the French National Accounting Board decided that CADES could present certain transactions in a manner specific to it. Accordingly, in its profit and loss account, CADES records operating income and expenses, which are mainly composed of the revenue drawn from the CRDS and CSG and from property transactions, and payments to the State and social security funding organisations.

These accounts are then aggregated to comply with the chart of accounts applicable to administrative public undertakings in accordance with the requirements of Instruction M9-1, replaced by the public agencies' common nomenclature on 1 January 2016, before being submitted to the Government Audit Office.

2. Specific characteristics of CADES

CADES has been tasked with paying down the debt transferred to it. The profit or loss therefore measures its capacity to reduce its own debt, and corresponds to the resources allocated to it less the financial costs relating to its debt with third parties.

The profit and loss account should be interpreted in light of the specific mission entrusted to CADES, the sole purpose of which is to extinguish a debt over its scheduled term.

3. Debts assumed from social security funding organisations

The payments CADES makes in respect of debts assumed from social security funding organisations in accordance with the social security deficit funding acts are recognised against the profit and loss account brought forward.

When CADES' payments to the social security bodies as determined on the basis of the provisional deficits are greater than the deficits subsequently established, an adjustment may be made in CADES' favour. These adjustments are recognised against the profit and loss account brought forward at the time of the payment.

Debts assumed in accordance with legal stipulations but for which payments have not yet been made to the organisations are recorded as off-balance sheet commitments.

4. CADES' resources

4.1 Contribution to the repayment of the social security debt

▪ Revenue explicitly allocated to CADES

The social security debt repayment contribution (CRDS) defined by Order No. 96-50 of 24 January 1996 was explicitly created to provide resources to CADES. Article 6 of said Order states that “the proceeds of the contributions created in respect of Chapter 2 of said Order on repayment of the social security debt shall be allocated to Caisse d’Amortissement de la Dette Sociale”.

▪ A broad-based tax

The tax is levied on multiple sources of income. One can distinguish between:

- On the one hand, employment income and unemployment and similar benefits: salaried income, redundancy payments and retirement indemnities (under certain conditions), retirement and disability pensions, health and maternity benefits, housing benefits, family allowances and child-minding benefits, etc., and
- On the other hand, income from property, from investments, from the sale of precious metals, gems, objets d’art, collectors’ items and antiques, and from gaming.

Contributions assessed on the sales of precious metals and gems are collected by the State’s financial agencies (DGFIP and DGDDI) before being paid over to CADES.

Contributions assessed on employment income, unemployment and similar benefits as well as income from property, investments and gaming are paid over daily by ACOSS to CADES as and when they are collected by the central agency.

▪ Collection costs borne by CADES

Article 8 of the Order of 24 January 1996 stipulates that CADES shall bear assessment and collection costs. These costs consist of a flat amount defined jointly by the Minister of the Economy and Finance and the Minister of Social Security.

Collection agencies deduct a 0.5% withholding from the contribution paid over to CADES.

CRDS contributions levied on income from property entered in the tax assessment register mainly by the offices of the DGFIP (*Direction Générale des Finances Publiques* or Directorate General of Public Finances) are paid over to CADES on the basis of register entries and not the amounts actually collected. In return, a 4.1% withholding is applied to the sums paid over to CADES to cover assessment and collection costs (0.5%) and the cost of tax reductions and bad debts (3.6%), as provided for by Article 1641 of France’s General Tax Code (*Code Général des Impôts*).

Amounts collected by CADES in respect of the CRDS are reported under “Other operating income” in the profit and loss account. Assessment and collection costs are recorded under “Other operating charges”.

▪ Accrual basis accounting

CADES applies the accruals principle in accordance with accounting standards applicable to credit institutions and Articles L.114-5 and D.114-4-4 of the Social Security Code establishing the principle whereby social security agencies shall maintain accounting records on a receivable-payable basis.

Accordingly, CRDS contributions declared by collecting agencies are included in the accounts for the period regardless of the date on which these amounts were actually collected. CRDS amounts arising in the accounting period but which have not been collected or paid are consequently recognised in that period as receivables or accrued income.

To be able to recognise accrued income and deferred income at the balance sheet date, CADES accrues income on the basis of a notification provided by the collecting agencies indicating amounts assessed for the period not collected at the balance sheet date and CRDS contributions not yet collected by ACOSS. Provisions against

outstanding CRDS contributions are notified to CADES by ACOSS. These provisions are calculated on a statistical basis applying an annual rate determined by reference to an ageing analysis of the receivables. They are deducted from gross amounts receivable as reported in the balance sheet.

To prepare the half-yearly accounts, in the absence of a complete notification from the collecting agencies of accruals relating to the period, CADES estimates accrued income on the basis of the income notified in July (see Note 4).

At 30 June, given the lack of specific notifications from ACOSS identical to its yearly notifications, CADES calculates provisions against receivables, other provisions against CRDS revenue, and credit notes on the same basis as for the previous year's annual accounts. At 30 June 2020, it exceptionally revised upwards the receivables provisioning rate used for the 2019 accounts to take into account the deterioration in the economic outlook resulting from the COVID-19 health crisis.

Following the COVID-19 health crisis, the State deferred the payment deadline for CSG and CRDS salary contributions due from companies, on certain conditions. As from March 2020, CADES noted a divergence between the income and collections notified by ACOSS, which is attributable to companies' deferral of payments over that period. In accordance with the accruals principle and on the basis of ACOSS' monthly notifications (income versus collections), on 30 June 2020 CADES recognised an additional receivable. It also recognised a provision for the impairment of that additional receivable which takes into account an estimation of the payment adjustments made in July and August 2020 as well as the risk that the amounts in question will not be collected due to a future economic deterioration resulting from the COVID-19 pandemic (see Note 3).

Regarding the collection of the CRDS contributions, note that at no time does CADES act as primary collector; all the resources to which it is entitled are remitted by third parties, first and foremost ACOSS, followed by the offices of the DGFIP.

CADES' responsibility is confined to verifying that the sums transferred agree to the accounting vouchers raised. The primary collecting agencies are responsible for transferring the funds, for verifying the tax base, for adjusting tax bases when applicable and for recovering past dues, in return for which these agencies receive a remuneration equivalent to 0.5% of the sums collected.

Accordingly, CADES' responsibility at revenue level is limited to substantive verifications of the accounting vouchers produced by the collecting agencies.

4.2 - Supplementary social security contribution

The 2009 Social Security Funding Act No. 2008-1330 extended the mission of CADES by entrusting to it an additional €27 billion of debt in respect of the health insurance deficit (€14.1 billion), old age pension deficit (€8.8 billion) and senior citizens' solidarity fund (€4 billion).

In accordance with the Organic Law of 2 August 2005, the French Parliament voted to increase CADES' resources. These new resources correspond to a portion of the supplementary social security contribution (*Contribution Sociale Généralisée – CSG*). Since 2009, this has been paid to CADES at the rate of 0.2%. From 2011 it was increased to 0.48% and then from 1 January 2016 to 0.60% for CSG on all taxable employment income, unemployment and similar benefits, and income from property and investments; while CSG on profits from gaming was increased from 1 January 2016 to 0.30%.

This is a broad-based tax levied on employment income, unemployment and similar benefits as well as income from property, investments and gaming.

The difference in tax base between the CRDS and CSG mainly concerns revenue from the sale of precious metals and gems, from gaming and from family benefits.

The payment circuits and methods of accounting for the CSG are the same as for the CRDS.

4.3 - Social levies on income from property and investments

Act No. 2010-1594 of 20 December 2010 allocated to CADES, starting in 2011, a 1.3% share of the social levies on the income from property and investments referred to in Articles 245-14 and 245-15 of the Social Security Code. The rate for these levies is set at 5.4% as from 1 January 2012.

With effect from 1 January 2016, the payment of 1.3% of social levies on income from property and investments was replaced by an increase of 0.12% in the portion of the CSG paid to CADES.

4.4 - Resources from the Retirement Reserve Fund

Under the 2011 Social Security Funding Act (*Loi de Financement de la Sécurité Sociale – LFSS*) No. 2010-1594 of 20 December 2010, the Retirement Reserve Fund (*Fonds de Réserve pour les Retraites – FRR*) is required to pay CADES a total of €29.4 billion in yearly instalments of €2.1 billion no later than 31 October each year, with effect from 1 January 2011 until 2024. The two institutions concerned have an agreement setting out the timing and terms and conditions governing these payments.

The annual income of €2.1 billion paid by the FRR since 2011 is recognised under income for the period.

FRR's commitment to pay amounts for subsequent years is recognised in off-balance sheet items under "Other commitments received – Retirement Reserve Fund".

5. Private rental property

CADES has sold all the property transferred to it on 1 January 2000 in application of Article 9 of Order No. 96-50 of 24 January 1996 and recorded under "Property endowment" as a component of reserves.

Acting on behalf of CADES, CNAV managed the residual rights and obligations related to this property until the expiration of the agreement between the two parties on 31 December 2006.

Signed in December 1999, this agreement empowered CNAV to do all that was necessary in connection with the administration of the properties.

Since 1 January 2007, CADES manages disputes and claims internally.

CADES' Accounting Officer records expenses and revenue on the basis of the supporting documents submitted by the Authorising Officer.

6. Transactions denominated in foreign currencies

Foreign currency transactions are recorded on a multi-currency basis and are measured in accordance with the following principles:

- Foreign currency transactions involving balance sheet and off-balance sheet items are measured in euro at the rate of exchange ruling on the balance sheet date.
- The rates used at 30 June 2020, which correspond to the reference rates communicated by the European Central Bank, are indicated in the table below:

USD:	1.1198	SEK:	10.4948	GBP:	0.91243
AUD:	1.6344	NOK:	10.9120	MXN:	25.9470
CHF:	1.0651	NZD:	1.7480	HKD:	8.6788
CAD:	1.5324	TRY:	7.6761	JPY:	120.66
ZAR:	19.4425	SGD:	1.5648	CNY:	7.9219

- Foreign currency income and charges are translated into euro at the exchange rate ruling on the date when they were recognised in the profit and loss account.
- Realised and unrealised foreign exchange gains and losses are recognised in the profit and loss account as operating income from banking transactions or operating charges on banking transactions.

7. Repurchase agreements with securities delivered

Only securities issued or guaranteed by the State may be used as security by CADES in repurchase agreements entered into to invest its cash balances.

Securities received under these agreements are reported under loans and advances to credit institutions.

Since the transaction account that CADES held with Banque de France was merged with the State's regulated client account, investing cash is no longer part of CADES' remit. Repurchase agreements involving the delivery of securities have therefore become obsolete.

8. Tangible and intangible fixed assets

Fixed assets are accounted for under the historical cost convention. Tangible fixed assets are depreciated and intangible fixed assets amortised over their estimated useful life.

Tangible fixed assets consist mainly of office equipment and computer hardware.

Intangible fixed assets consist of software.

9. Bonds

Bonds issued by CADES are reported as a liability in the balance sheet at their nominal value (if redeemed at par) plus accrued interest. Foreign currency bonds are translated into euro at the exchange rate prevailing on the balance sheet date.

Bonds indexed to inflation (French consumer price index excluding tobacco for all households in Metropolitan France) are measured by reference to a predefined inflation benchmark on the balance sheet date, resulting in the recognition of a redemption premium that is reported as a liability.

Inflation benchmarks:

CPI at 30 June 2020:	103.81123
Cadesi 2021 index:	1.108977
Cadesi 2024 index:	1.06863

When bonds are issued at a premium, this premium is accounted for as deferred charges and is therefore reported under prepayments and accrued income in the balance sheet. These charges are recognised to the profit and loss account over the life of the bonds under banking operating charges.

When bonds are issued at a discount, this discount is accounted for as deferred income. This income is recognised to the profit and loss account over the life of the bonds under banking operating income.

All costs relating to bond issues are charged to the profit and loss account on the date of issue and reported under "fees paid".

10. Interest rate and currency swaps

Commitments in respect of transactions involving forward financial instruments, entered into for the purpose of hedging interest rate and currency exposure, are reported as off-balance sheet commitments at the contract's nominal value. Accounting principles applied differ according to the nature of these instruments and management intention at inception.

Transactions consist mainly of interest rate swaps and currency swaps entered into for hedging purposes. Interest rate swaps are entered into in compliance with the risk management policy defined by the Board of Directors. Currency swaps are entered into only for the purpose of hedging CADES' foreign exchange exposures.

Income and charges arising on forward financial instruments entered into for the purpose of hedging or managing the global interest rate exposure are recognised to profit or loss *pro rata temporis*.

Gains and losses on hedging designed to reduce the risk resulting from a particular asset or liability are taken to profit or loss and included under interest receivable and similar income or interest payable and similar charges to match income or charges recognised in respect of the hedged item.

As regards balancing cash payments arising from swaps entered into to hedge a debt instrument on inception, the portion covering issuance costs in respect of the underlying instrument is taken to profit and loss when the cash payment is recognised. This accounting method fairly reflects the asset value of issues transformed by entering into swaps involving cash payments and results in the amount equivalent to the issuance costs being recognised to profit and loss *pro rata temporis*.

11. Provisions

No general provisions for liabilities and charges are recognised by CADES. When appropriate, provisions in respect of identified risks are set aside in accordance with applicable accounting principles.

12. Taxation

CADES is not assessed to business taxes (corporation tax, value added tax and local business tax) or to apprenticeship tax. The only tax it pays is the payroll tax.

Note that profits on the sale of property transferred by the social security agencies did not give rise to the payment of corporation tax.

13. Counterparty risk

CADES may be exposed to counterparty risk on forward market transactions.

With all of its counterparties, CADES has signed AFB or FBF forward market agreements providing for daily or weekly margin calls depending on the counterparty and the agreement in place.

To manage its interest rate risk and eliminate currency and/or structural risk, CADES enters into transactions in the forward markets involving instruments such as interest rate swaps, currency swaps and asset swaps.

CADES' residual risk on such instruments in the event of counterparty default is thus reduced by daily or weekly margin calls.

14. New IBOR reform

A fundamental reform of the "IBOR" interest rate benchmark indices is underway in the markets. There is some uncertainty as to the timetabling and the transitioning methods that will be used to replace the existing IBOR benchmark rates with alternative rates.

The IBOR rates continue to be used as benchmark rates for the financial markets and to value financial instruments that mature after these rates' expected expiry dates.

In CADES' view, the current structure of the market justifies the continued use of hedge accounting at 30 June 2020.

CADES has undertaken an analysis to take into account the potential repercussions of these index changes.

NOTES

BALANCE SHEET

At 30 June 2020, the balance sheet showed total assets of €23.84 billion for total debt of €105.62 billion, resulting in negative reserves of €1.86 billion.

Other assets comprise:

- deposits paid by way of initial margins for €31.96 million; and
- outstanding CRDS and CSG contributions and social levies to be collected by ACOSS amounting to €14.04 million. Provisions totalling €99.67 million have been deducted from the gross amounts receivable of €1,013.71 million.

The €462.86 million increase in gross amounts receivable corresponds mainly to the State's deferral of companies' deadlines for paying CSG and CRDS salary contributions.

Movements in provisions against outstanding CRDS and CSG contributions and social levies to be collected and in respect of sundry debtors are detailed in the table below:

The €255.47 million addition to provisions corresponds to:

- the increase in the provision for existing receivables at 31 December 2019 for €24.04 million. The provisioning rate used for these receivables was revised upwards to take into account the deterioration in the economic outlook resulting from the COVID-19 health crisis.
- the addition to provisions for receivables corresponds to the deferral of salary contribution payment deadlines for €231.43 million. This provision takes into account an estimation of the payment adjustments made in July and August 2020 as well as the risk that the amounts in question will not be collected due to a future economic deterioration resulting from the COVID-19 pandemic.

Prepayments and accrued income consist of transactions affecting the profit and loss account independently of the date on which the corresponding income is paid or collected. They include:

- accrued income relating to CRDS and CSG for €1,357.77 million, interest rate financial instruments for €4.15 million and foreign currency financial instruments for €172.96 million;
- issuance premiums on bonds and EMTN amounting to €79.32 million to be recognised in profit and loss over time;
- prepayments amounting to €20.80 million, which consist mainly of prepaid interest on the issue of negotiable debt instruments;
- foreign currency adjustment accounts amounting to €619.17 million, being technical accounts used to recognise to profit and loss adjustments arising on the measurement of off-balance sheet commitments.

LIABILITIES AND RESERVES

In respect of liabilities, a distinction is made between CADES' reserves and its other liabilities.

Reserves, which consist of the profit and loss account brought forward (€89,274.01 million), the profit or loss for the year (€7,229.95 million) and the property endowment (€81.22 million), came to €81,862.84 million.

The profit and loss account brought forward broke down as follows:

A euro issue for €200 million with a €100 million tap maturing on 20 December 2025 is subject to early redemption at the counterparty's option from 2021.

Debts evidenced by securities are analysed below:

Debts evidenced by securities totalled €101,351.01 million and comprise negotiable debt securities totalling €12,881.64 million and bonds and similar instruments totalling €88,469.37 million.

Bonds and similar instruments are issued under a borrowing programme approved by the Minister of the Economy on 15 December 2017, and may be stand-alone or part of the following programmes:

- a French issuance programme for which the maximum amount of outstandings is €130 billion;
- a UK issuance programme for which the maximum amount of outstandings is €65 billion;
- a New York commercial paper issuance programme for which the maximum amount of outstandings is €60 billion;
- a French medium-term note (NEU MTN) issuance programme for which the maximum amount of outstandings is €10 billion;
- a French short-term note (NEU CP) issuance programme for which the maximum amount of outstandings is €25 billion;
- an Australian issuance programme for which the maximum amount of outstandings is AUD 6 billion.

All in all, at 30 June 2020 debts evidenced by securities maturing within one year totalled €37,471.86 million and by those maturing in more than five years €7,995.48 million, compared with €21,365.17 million and €8,487.07 million, respectively, at 31 December 2019. Debts due to mature at between one and five years fell from €2,193.27 million at 31 December 2019 to €5,883.67 million at 30 June 2020.

The table above provides a breakdown of the initial nominal debt by issuance currency. Since all transactions in foreign currencies have been hedged, the debt of CADES is synthetically entirely in euro. Hedging transactions have enabled CADES to eliminate the impact of exchange rate fluctuations on its debt.

The table below shows the breakdown of CADES' debt by interest rate type. Hedging impacts the initial breakdown, such that in the final analysis, 76%⁽¹⁾ of the debt bears fixed rates, 17% floating rates and 7% rates indexed to inflation.

They include notably:

- Accruals in respect of interest rate swaps for €2.97 million, forward currency transactions for €1.90 million, and CRDS and CSG for €10.26 million;
- Balancing cash payments on currency swaps amounting to €6.45 million that are to be spread;
- Unearned income, corresponding to premiums on bond issues (€300.15 million);
- Currency adjustment accounts amounting to €448.59 million, being technical accounts used to recognise to profit and loss adjustments arising on the measurement of off-balance sheet commitments.

Note 8a: Provision accounts

Provisions for liabilities and charges include provisions for:

- redundancy indemnities;
- remuneration of days saved by CADES employees;
- the consequences of the European Court of Justice's Judgment of 26 February 2015 concerning the reimbursement by CADES of CRDS, CSG and social levy overpayments (see Note 14);
- provisions for liabilities and charges in respect of CSG and CRDS.

Net banking income	(807.11)
Exceptional income items	-
Other operating income and charges	<u>8,037.06</u>
Gross operating profit and net profit for the period	<u>7,229.95</u>

A specific mission has been entrusted to CADES, which is to extinguish a debt over its scheduled term. The profit for the year measures its capacity to reduce its own debt.

Net banking income

Net banking income consists of the cost of debt, the income generated from cash positions and the net profit or loss on financial transactions.

Note 12.1: CSG revenues

Supplementary social security contributions (*Contribution Sociale Généralisée – CSG*) are a resource allocated to CADES at the rate of 0.60% since 1 January 2016 for CSG on income from employment, unemployment and other similar benefits and on taxable income from property and investments, and at 0.30% for CSG on gaming proceeds.

The tax base is similar to that of the CRDS, with the exception that no contributions are levied on the sale of gems and precious metals.

Note 12.2: Social levies on income from property and investments

Social levies on income from property and investments were a source of revenue allocated to CADES from 1 January 2011 under Act No. 2010-1594 of 20 December 2010 (pursuant to Articles 245-14 and 245-15 of the Social Security Code). Since 1 January 2016, CADES no longer receives the 1.3% portion of these levies, but an additional 0.12% of CSG.

The following table essentially shows adjustments made in 2019.

General operating charges correspond to expenditure falling within the scope of the administrative budget. They do not include the acquisition and the amortisation and depreciation of fixed assets (see Note 2). They fell by 17% compared with 30 June 2019, mainly on account of the decrease in the institution's operating costs.

List of staff positions at 30 June 2020

Non-civil servant public sector employees:

- 1 senior front office manager (grade A)
- 1 assistant front office manager (grade A)
- 1 asset and liabilities matching strategist (grade A)
- 1 senior back office manager (grade A)
- 1 assistant back office manager (grade A)
- 1 bilingual executive secretary (grade B)

Civil servant employees:

- 1 general office manager (grade A)
- 1 administrative manager (grade A)

CADES has made available non-civil servant public sector employees to AFT since 1 September 2017 and has accordingly paid the corresponding salaries, employer charges and payroll taxes, which have then been reimbursed annually by the Directorate General of the Treasury. In accordance with the terms of the services framework agreement signed on 1 September 2017 by CADES and the DGT, these salaries are then rebilled to CADES.

CADES' administrative expenses came to €1.04 million for the first half of 2020 and comprised mainly operating costs paid directly by the Ministry of the Economy, Finance and the Recovery in respect of activities carried out by AFT on behalf of CADES, in accordance with the financial agreement of 22 November 2018.

OFF-BALANCE SHEET COMMITMENTS

Off-balance sheet commitments distinguish between commitments given and commitments received and are analysed between loan commitments, guarantee obligations and guarantees on securities. Certain commitments are not recorded on the face of the accounts, being commitments in respect of currency transactions and forward financial instruments. Information regarding these commitments is provided in Notes 16 and 17 below.

OTHER INFORMATION

The table below provides information on market value, comparing the debt at repayment value as at 30 June 2020 with the debt at market value.

Debt at repayment value as at closing date comprises the following elements:

- a. The nominal value of fixed rate, variable rate and adjustable rate borrowings in euros.
- b. The nominal value of the fixed rate, variable rate and adjustable rate euro legs of basis swaps representing perfect transformation of foreign currency-denominated borrowings into euro-denominated borrowings.
- c. The accrued nominal value of inflation indexed bonds as at 30 June 2020.
- d. Interest accrued but not yet due is excluded from debt at repayment value.

Debt at repayment value at maturity comprises the following elements:

- a. The nominal value of fixed rate, variable rate and adjustable rate borrowings in euro.
- b. The nominal value of the fixed rate, variable rate and adjustable rate euro legs of swaps representing perfect transformation of foreign currency-denominated borrowings into euro-denominated borrowings.
- c. The projected nominal value at maturity of inflation indexed bonds.
- d. The market value of swaps used for macro hedging.

Debt at market value comprises the following elements:

- a. The value of the fixed rate bonds and inflation indexed bonds based on the average market price on 30 June 2020.
- b. The value of unlisted securities issued by CADES obtained using the CADES zero-coupon curve as at 30 June 2020. Options embedded in certain of these securities are valued using an internal model based on standard valuation software developed and marketed by an independent service provider.
- c. The value of derivatives used to transform part of the debt through micro hedging. Options embedded in certain of these instruments are valued using the same internal model.
- d. The value of derivatives used for macro hedging.
- e. The present value at 30 June 2020 of collateral and bank balances.

Compared with the previous financial year, at 30 June 2020 there had been an increase in the proportion of short- and long-term debt and a decrease in that of medium-term debt, as shown by the table below:

DEBT	30 June 2020	30 June 2019	31 December 2019
Short-term (under 1 year)	20.13%	13.28%	20.40%
Medium-term	68.63%	67.35%	68.83%
Long-term (over 5 years)	11.24%	19.37%	10.66%

As regards the breakdown between issues denominated in euro and other currencies, in the six months ended 30 June 2020 the proportion of foreign currency-denominated debt increased slightly from 31 December 2019, as shown by the table below:

DEBT	30 June 2020	30 June 2019	31 December 2019
In foreign currencies	30.14%	20.87%	20.06%
In euros	69.86%	79.13%	79.94%

Lastly, the post-hedging book-value-debt breakdown relative to 31 December 2019 below shows an increase in the proportion of fixed rate and, to a lesser extent, indexed rate issues, while that of revisable rate issues has become negative:

DEBT	30 June 2020	30 June 2019	31 December 2019
Revisable rate	(3.35)%	5.47%	6.05%
Indexed rate	8.66%	10.22%	7.86%
Fixed rate	94.70%	84.31%	86.10%

Explanation of variances between market value and repayment value of debt:

The difference between the market value of the debt and its repayment value is explained by the following factors:

- The market value of fixed rate loans increased because of the decline in interest rates;
- Market value factors in the present value of future coupons whereas the repayment value excludes coupons;
and
- Gains and losses on macro hedging swaps impact market value one way or the other.

The above information covers a significant part of CADES' main activity, which is to repay in the best possible conditions the debt it raises on the financial markets.

POST-BALANCE SHEET DATE EVENTS

The health crisis related to the COVID-19 pandemic is weighing heavily on social security finances. The debts of ACOSS have increased considerably due to the fall in salary-based social security contributions during the crisis. It has also been necessary to increase the level of spending.

Pursuant to Organic Law No. 2020-991 and Ordinary Law No. 2020-992 of 7 August 2020 on the social security debt and autonomy, CADES will assume an additional €136 billion of debt.

In order to secure the social security system's financial situation and organise this new debt transfer, the deadline by which CADES must have paid back its debt has been deferred from 2024 to 2033.

Any further transfer of debt to CADES will be accompanied by an increase in its revenues to avoid prolonging its debt amortisation period beyond 31 December 2033. This allows CADES, with immediate effect, to incur debt over the full course of its remaining life and thus to benefit from current financing conditions over the long term.

CADES will have the following revenues at its disposal in order to fulfil its mission:

- 0.5 points of CRDS maintained until its duties are acquitted;
- 0.6 points of CSG maintained until 2023, then 0.45 points from 2024 to 2033;
- an annual payment from the FRR of €2.1 billion until 2024, then €1.45 billion from 2025 to 2033.
