The Board issued a positive review of the CADES annual report for 2017. This report includes an activity report and annual accounts drawn up by the accounting officer. Accounts were first approved by the Board of Directors on 4 April 2018 and then by the parent ministers. The Board also reviewed CADES' activity for the first few months of 2018.

About CADES

In 1996, the French government set up the Caisse d'Amortissement de la Dette Sociale with a mission to amortise French social debt by issuing debt securities on international financial markets in a diverse range of currencies.

To enable CADES to carry out its mission, the French population pays regular taxes which contribute to the payment of interest and amortisation of social debt.

Supervised jointly by the Minister of The Economy and Finance and by the Ministers in charge of social security, CADES operates under the control of the French Parliament and the Constitutional Council.

CADES is well integrated into the French social system, having strong joint governance, co-chaired by a Board of Directors and a Supervisory Committee, which includes four members of French Parliament.

Backed by the French Parliament, CADES is one of the most significant institutions involved in the control and reduction of French social debt by using efficient and proven amortization and financing mechanisms.

Since 1 October 2017, teams from CADES and AFT, the French state debt management office, have merged to create a centre of excellence for issuing French public debt. In this regard, CADES has

transferred operational responsibility for all of its funding activities to AFT. As such, AFT now operates on behalf of and for CADES, making its staff available when appropriate.
