**STATUTORY AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS**

**Financial year ended 31 December 2025**

Dear Sir, Madam,

**OPINION**

In compliance with the engagement entrusted to us by your Board of Directors, we have audited the accompanying financial statements of the *Caisse d'Amortissement de la Dette Sociale* (CADES) for the year ended December 31<sup>st</sup>, 2025, as attached to this report.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the Company as at 31<sup>st</sup> December 2025 and of the results of its operations for the year then ended in accordance with French accounting principles.

The audit opinion expressed above is consistent with our report to the Audit Committee.

**BASIS FOR OPINION**

***Audit Framework***

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the Statutory Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

***Independence***

We carried out our audit engagement in compliance with independence requirements of the French Commercial Code (*Code de commerce*) and the French Code of Ethics (*Code de déontologie*) for statutory auditors for the period from 1<sup>st</sup> January 2025 to the date of our report and specifically we did not provide any prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No 537/2014.

## **JUSTIFICATION OF ASSESSMENTS - KEY AUDIT MATTERS**

In accordance with the requirements of Articles L. 821-53 and R. 821-180 of the French Commercial Code relating to the justification of our assessments, we inform you of the key audit matters relating to risks of material misstatement that, in our professional judgment, were of most significance in our audit of the financial statements of the current period, as well as how we addressed those risks.

These assessments were made in the context of our audit of the financial statements taken as a whole and the formation of our audit opinion expressed above. We do not express an opinion on any individual element of these annual accounts.

We determined that there were no key audit matters to report.

## **SPECIFIC VÉRIFICATIONS**

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by laws and regulations.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report of the Board of Directors and in the other documents with respect to the financial position and the financial statements provided to supervisory authorities.

## **REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS**

### ***Appointment of the Statutory Auditor***

We were appointed as statutory auditor of CADES by notification from the President of the Board of Directors dated 28 June 2022, ratified by the Board of Directors on 5 October 2022. As of 31 December 2025, Grant Thornton was in the fourth year of its total uninterrupted engagement.

## **RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with French accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The Audit Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risks management systems and where applicable, its internal audit, regarding the accounting and financial reporting procedures.

The financial statements were approved by the Board of Directors.

## **STATUTORY AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS**

### ***Objectives and audit approach***

Our role is to issue a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken based on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code (Code de commerce), our statutory audit does not include assurance on the viability of the Company or the quality of management of the affairs of the Company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit, and furthermore:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the cover of internal control;
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control;
- Evaluates the appropriateness of accounting policies used and the reasonableness of the accounting estimates; and related disclosures made by management in the financial statements.
- Assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of this audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, attention must be drawn in the audit report to the information provided in the financial statements concerning this uncertainty or, if such disclosures are not provided or are irrelevant, a qualified opinion or a refusal to certify the financial statements must be issued;
- Evaluates the overall presentation of the financial statements and assesses whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

### ***Report to the Audit Committee***

We submit a report to the Audit Committee, setting out in particular, the scope of our audit and the audit program implemented, together with the conclusions of our audit. We also report to the Audit Committee any material weaknesses in internal control that we have identified relating to the accounting and financial reporting procedures.

Our report to the Audit Committee includes the risks of material misstatement that, in our professional judgment, were of most significance in the audit of the financial statements of the current period and which are therefore the key audit matters that we are required to describe in this report.

We also provide the Audit Committee with the declaration provided for in Article 6 of Regulation (EU) N° 537/2014, confirming our independence within the meaning of the rules applicable in France such as they are set in particular by Articles L.821-27 to L.821-34 of the French Commercial Code (code de commerce) and in the French Code of Ethics for statutory auditors. Where appropriate, we discuss with the Audit Committee the risks that may reasonably be thought to bear on our independence, and the related safeguards.

Statutory Auditor

Grant Thornton SAS

French Member of Grant Thornton International

Provisions - sundry allocations or reversals	(105.09)	(57.57)	<b>(27.91)</b>
	-	-	-
<b>Net cash from (used in) operating activities (B)</b>	<b>18,946.11</b>	<b>19,356.39</b>	<b>20,896.10</b>
<b>Net cash from (used in) banking and operating activities (C=A+B)</b>	<b>16,340.43</b>	<b>16,252.05</b>	<b>18,654.99</b>
<b>Net cash from (used in) financing activities (D)</b>	<b>(17,028.85)</b>	<b>(3,841.96)</b>	<b>7,055.75</b>
<b>Debt assumed (E)</b>	<b>-</b>	<b>(8,768.47)</b>	<b>(27,231.53)</b>
<b>Net cash flow for the period (C+D+E)</b>	<b>(688.42)</b>	<b>3,641.62</b>	<b>(1,520.80)</b>
Net cash at beginning of period	6,092.39	2,450.77	3,971.57
Net cash at end of period	5,403.96	6,092.39	2,450.77
<b>Net cash flow for the period</b>	<b>(688.42)</b>	<b>3,641.62</b>	<b>(1,520.80)</b>

The cash flow statement takes into account the following items:

- A – net cash from (used in) banking activities

This is net banking income (debts plus income from derivatives and cash instruments) less income and expenses with no effect on the cash position (provisions, amortisation of issuance and redemption premiums, accrued interest, revaluation of index-linked bonds, etc.).

- B – net cash from (used in) operating activities

This is the operating profit or loss (mainly income from CRDS and CSG, social levies on income from property and investments and from the FRR) less income and expenses with no effect on the cash position (accrued income or accrued expenses).

- C – cash from (used in) banking and operating activities

This consists of net cash from (used in) banking and operating activities (C = A + B).

- D – net cash from (used in) financing activities

These are the cash flows resulting from debt issuance and debt repayment during the period.

- E – social security debt assumed

Social security debt assumed represents the amount recognised under reserves during the period by CADES in respect of debt assumed from social security funding organisations.

The net change in cash and cash equivalents reflects the following cash flows:

- cash from (used in) banking and operating activities (C);
- net cash from (used in) financing activities (D);
- social security debt assumed (E).

## NOTES TO THE FINANCIAL STATEMENTS

### HIGHLIGHTS OF THE YEAR ENDED 31 DECEMBER 2025

- **Debts assumed from social security funding organisations**

No debt assumption took place in 2025. The 2026 Social Security Financing Bill provides for a further transfer of debt from the Social Security system to CADES, amounting to €15 billion.

This transfer takes the form of an off-balance-sheet commitment for the corresponding amount as at 31 December 2025.

In accordance with the accounting policies and methods set out in point 3, “Debts assumed from social security funding organisations”, the payments made in 2026 will be against the profit and loss account brought forward.

- **Financing transactions**

- **Issues (excluding commercial paper)**

CADES borrowed €7.56 billion:

- one issue made under the UK programme in USD, for an amount of €2.44 billion;
- two issues made under the French programme in EUR, for an amount of €5 billion;
- one issue made under the French programme in CNY, for an amount of €122 million.

- **Redemptions (excluding commercial paper)**

CADES reimbursed €22.09 billion at maturity:

- seven issues made under the French programme in EUR, for an amount of €7.52 billion;
- three issues made under the UK programme in USD, for an amount of €10.71 billion;
- one issue made under the French programme in AUD, for an amount of €84.07 million.
- seven issues made under the French programme in NOK, for an amount of €976.7 million.
- two issues made under the German programme in EUR, for an amount of €847 million.
- one issue made under the French programme in CHF, for an amount of €114.56 million.
- one issue made under the French programme in GBP, for an amount of €1.69 billion.
- one issue made under the French programme in CNY, for an amount of €143.64 million.

- **Credit lines**

Commitments received as at 31 December 2025 comprise:

- Five activation agreements for credit lines enabling CADES to add funds directly to its euro-denominated deposit account held with Banque de France, totalling €1.3 billion and cancellable by the counterparties at 30 to 60 days’ notice, depending on the agreement.

## ACCOUNTING POLICIES AND METHODS

### **1. Basis of valuation and presentation**

The accounting policies adopted by CADES meet two requirements.

Given that the activity of CADES is essentially financial, the financial statements are prepared in accordance with accounting regulations applicable to credit institutions and financial institutions as well as with generally accepted accounting principles in France. In particular, CADES has applied the accrual concept and the prudence concept.

The presentation of the financial statements complies with Regulation No. 2014-07 of 26 November 2014 issued by the French Accounting Standards Authority (*Autorité des Normes Comptables* – ANC) relating to the financial statements of banking sector companies. In its opinion CNC 99-04, the French National Accounting Board decided that CADES could present certain transactions in a manner specific to it. Accordingly, in its profit and loss account, CADES records operating income and expenses, which are mainly composed of the revenue drawn from the CRDS and CSG and from property transactions, and payments to the State and social security funding organisations.

### **2. Specific characteristics of CADES**

CADES has been tasked with paying down the debt transferred to it. The profit for the year therefore measures its capacity to reduce its own debt, and corresponds to the resources allocated to CADES less the financial costs relating to its debt with third parties.

The profit and loss account should be interpreted in light of the specific mission entrusted to CADES, the sole purpose of which is to extinguish a debt over its scheduled term.

### **3. Debts assumed from social security funding organisations**

On the effective date of the decree that sets the amounts and dates of payments that CADES must make in respect of debts assumed from social security funding organisations in accordance with the social security deficit funding acts, the amounts payable are recognised under amounts payable to social security funding organisations, with an offsetting entry against the profit and loss account brought forward<sup>3</sup>.

When CADES' actual payments to the social security bodies as determined on the basis of the provisional deficits are greater than the deficits subsequently established, an adjustment may be made in CADES' favour. These adjustments are recognised against the profit and loss account brought forward at the time of the payment.

Debts assumed in accordance with legal stipulations but for which the amounts and payment dates have not yet been set by decree are recorded as off-balance sheet commitments.

---

<sup>3</sup> Opinion No. 2010-01 of 9 February 2010

#### **4. CADES' resources**

Ordinary Law No. 2020-992 of 7 August 2020 on the social security debt and autonomy, which amends Order No. 96-50, extended CADES' term, initially set to end in 2024, to 31 December 2033 and allocated the following resources to CADES in the future:

- maintenance of 0.5 percentage points of CRDS until it has completed its missions;
- maintenance of 0.6 percentage points of CSG until 2023 and then 0.45 percentage points from 2024 to 2033;
- an annual payment of €2.1 billion from the FRR until 2024 and then of €1.45 billion from 2025 to 2033.

##### **4.1 - Contribution to the repayment of social security debt**

###### **▪ Revenue explicitly allocated to CADES**

The social security debt repayment contribution (CRDS) defined by Order No. 96-50 of 24 January 1996 was explicitly created to provide resources to CADES. Article 6 of said Order states that “the proceeds of the contributions created in respect of Chapter 2 of said Order on repayment of the social security debt shall be allocated to *Caisse d'Amortissement de la Dette Sociale*”.

###### **▪ A broad-based tax**

The tax is levied on multiple sources of income. One can distinguish between:

- On the one hand, employment income and unemployment and similar benefits: salaried income, redundancy payments and retirement indemnities (under certain conditions), retirement and disability pensions, health and maternity benefits, housing benefits, family allowances and child-minding benefits, etc., and
- On the other hand, income from property, from investments, from the sale of precious metals, gems, *objets d'art*, collectors' items and antiques, and from gaming.

Contributions assessed on the sales of precious metals and gems are collected by the State's financial agencies (DGFIP) before being paid over to CADES.

Contributions assessed on employment income, unemployment and similar benefits as well as income from property, investments and gaming are paid over daily by ACOSS to CADES as and when they are collected by the central agency.

###### **▪ Collection costs borne by CADES**

Article 8 of the Order of 24 January 1996 stipulates that CADES shall bear assessment and collection costs. These costs consist of a flat amount defined jointly by the Minister of the Economy and Finance and the Minister of Social Security.

Collection agencies deduct a 0.5% withholding from the contribution paid over to CADES.

CRDS contributions levied on income from property entered in the tax assessment register mainly by the offices of the DGFIP (*Direction Générale des Finances Publiques* or Directorate General of Public Finances) are paid over to CADES on the basis of register entries and not the amounts actually collected. In return, a 4.1% withholding is applied to the sums paid over to CADES to cover assessment and collection costs (0.5%) and the cost of tax reductions and bad debts (3.6%), as provided for by Article 1641 of France's General Tax Code (*Code Général des Impôts*).

Amounts collected by CADES in respect of the CRDS are reported under “Other operating income” in the profit and loss account. Assessment and collection costs are recorded under “Other operating charges”.

###### **▪ Accrual basis accounting**

CADES applies the accruals principle in accordance with accounting standards applicable to credit institutions and Articles L.114-5 and D.114-4-4 of the Social Security Code establishing the principle whereby social

security agencies shall maintain accounting records on a receivable-payable basis.

Accordingly, CRDS contributions paid to collecting agencies are included in the accounts for the period regardless of the date on which these amounts were actually collected. So as to be able to recognise this accrued income and deferred income at the balance sheet date, CADES accrues this income on the basis of a notification provided by the collecting agencies indicating amounts assessed for the period not collected at the balance sheet date and CRDS contributions not yet collected by ACOSS. Provisions against outstanding CRDS contributions are notified to CADES by ACOSS. These provisions are calculated on a statistical basis applying an annual rate determined by reference to an ageing analysis of the receivables and, for receivables arising from payment extensions granted as a result of the COVID-19 health crisis, factoring in the likelihood that they will be collected based on current economic circumstances. These provisions are deducted from gross amounts receivable as reported in the balance sheet.

Regarding the collection of the CRDS contributions, note that at no time does CADES act as primary collector; all the resources to which it is entitled are remitted by third parties, first and foremost ACOSS, followed by the offices of the DGFIP.

CADES' responsibility is confined to verifying that the sums transferred agree to the accounting vouchers raised. The primary collecting agencies are responsible for transferring the funds, for verifying the tax base, for adjusting tax bases when applicable and for recovering past dues, in return for which these agencies receive a remuneration equivalent to 0.5% of the sums collected.

Accordingly, CADES' responsibility at revenue level is limited to substantive verifications of the accounting vouchers produced by the collecting agencies.

#### **4.2 - Supplementary social security contribution**

The 2009 Social Security Funding Act No. 2008-1330 extended the mission of CADES by entrusting to it an additional €27 billion of debt in respect of the health insurance deficit (€14.1 billion), old age pension deficit (€8.8 billion) and senior citizens' solidarity fund (€4 billion).

Pursuant to the Organic Law of 2 August 2005, the French Parliament voted to increase CADES' resources so as not to extend its life. These new resources correspond to a portion of the supplementary social security contribution (*Contribution Sociale Généralisée* – CSG). Since 2009, this has been paid to CADES at the rate of 0.2%. From 2011 it was increased to 0.48% and then from 1 January 2016 to 0.60% for CSG on all taxable employment income, unemployment and similar benefits, and income from property and investments, while CSG on profits from gaming was increased from 1 January 2016 to 0.30% and from 1 January 2021 to 0.22%.

Ordinary Law No. 2020-992 of 7 August 2020 on social security debt and autonomy, which amends Order No. 96-50, maintains the payment of 0.6 percentage points of CSG until 2023 and then of 0.45 percentage points from 2024 to 2033.

This is a broad-based tax levied on employment income, unemployment and similar benefits as well as income from property, investments and gaming.

The difference in tax base between the CRDS and CSG mainly concerns revenue from the sale of precious metals and gems, from gaming and from family benefits.

The payment circuits and methods of accounting for the CSG are the same as for the CRDS (see 4.1).

#### **4.3 - Social levies on income from property and investments**

Act No. 2010-1594 of 20 December 2010 allocated to CADES, starting in 2011, a 1.3% share of the social levies on the income from property and investments referred to in Articles 245-14 and 245-15 of the Social Security Code. The rate for these levies is set at 5.4% as from 1 January 2012.

With effect from 1 January 2016, the payment of 1.3% of social levies on income from property and investments was replaced by an increase of 0.12% in the portion of the CSG paid to CADES.

#### **4.4 - Resources from the Retirement Reserve Fund**

Under the 2011 Social Security Funding Act (*Loi de Financement de la Sécurité Sociale – LFSS*) No. 2010-1594 of 20 December 2010, the Retirement Reserve Fund (*Fonds de Réserve pour les Retraites – FRR*) is required to pay CADES a total of €29.4 billion in instalments of €2.1 billion no later than 31 October each year, with effect from 1 January 2011 until 2024. Law No. 2020-992 of 7 August 2020 on social debt and autonomy provided for an additional annual payment of €1.45 billion from 2025 to 2033. The two institutions concerned have an agreement setting out the timing and terms and conditions governing these payments.

This annual resource paid by the FRR is recognised under income for the period.

FRR's commitment to pay amounts for subsequent years is recognised in off-balance sheet items under "Other commitments received – Retirement Reserve Fund".

#### **5. Private rental property**

CADES has sold all the property transferred to it on 1 January 2000 in application of Article 9 of Order No. 96-50 of 24 January 1996 and recorded under "Property endowment" as a component of reserves.

Acting on behalf of CADES, CNAV managed the residual rights and obligations related to this property until the expiration of the agreement between the two parties on 31 December 2006.

Signed in December 1999, this agreement empowered CNAV to do all that was necessary in connection with the administration of the properties.

Since 1 January 2007, CADES has been managing disputes and claims internally. No disputes were in progress at 31 December 2025.

CADES' Accounting Officer records expenses and revenue on the basis of the supporting documents submitted by the Authorising Officer.

#### **6. Transactions denominated in foreign currencies**

Foreign currency transactions are recorded on a multi-currency basis and are measured in accordance with the following principles:

- Foreign currency transactions involving balance sheet and off-balance sheet items are measured in euro at the rate of exchange ruling on the balance sheet date.
- The rates used at 31 December 2025, which correspond to the reference rates communicated by the European Central Bank, are indicated in the table below:

USD	1.17500	NZD	2.0380	SEK	10.8215
HKD	9.1464	CAD	1.6088	MXN	21.1180
CHF	0.9314	TRY	50.4838	SGD	1.5105
GBP	0.872600	ZAR	19.4439	CNY	8.2262

- Foreign currency income and charges are translated into euro at the exchange rate ruling on the date when they were recognised in the profit and loss account.
- Realised and unrealised foreign exchange gains and losses are recognised in the profit and loss account as operating income from banking transactions or operating charges on banking transactions.

#### **7. Repurchase agreements with securities delivered**

Only securities issued or guaranteed by the State may be used as security by CADES in repurchase agreements entered into to invest its cash balances.

Securities received under these agreements are reported under loans and advances to credit institutions.

These operations are managed by Agence France Trésor as part of the management of the institution's euro cash via the Single Treasury Account.

## **8. Tangible and intangible fixed assets**

Fixed assets are accounted for under the historical cost convention. Tangible fixed assets are depreciated and intangible fixed assets amortised over their estimated useful life.

Tangible fixed assets consist mainly of office equipment and computer hardware.

Intangible fixed assets consist of software.

## **9. Bonds**

Bonds issued by CADES are reported as a liability in the balance sheet at their nominal value (if redeemed at par) plus accrued interest. Foreign currency bonds are translated into euro at the exchange rate prevailing on the balance sheet date.

Bonds indexed to inflation (French consumer price index excluding tobacco for all households in Metropolitan France) are measured by reference to a predefined inflation benchmark on the balance sheet date, resulting in the recognition of a redemption premium that is reported as a liability.

When bonds are issued at a premium, this premium is accounted for as deferred charges and is therefore reported under prepayments and accrued income in the balance sheet. These charges are recognised to the profit and loss account over the life of the bonds under banking operating charges.

When bonds are issued at a discount, this discount is accounted for as deferred income. This income is recognised to the profit and loss account over the life of the bonds under banking operating income.

All costs relating to bond issues are charged to the profit and loss account on the date of issue and reported under "fees paid".

## **10. Interest rate and currency swaps**

Commitments in respect of transactions involving forward financial instruments, entered into for the purpose of hedging interest rate and currency exposure, are reported as off-balance sheet commitments at the contract's nominal value. Accounting principles applied differ according to the nature of these instruments and management intention at inception.

Transactions consist mainly of interest rate swaps and currency swaps entered into for hedging purposes. Interest rate swaps are entered into in compliance with the risk management policy defined by the Board of Directors. Currency swaps are entered into only for the purpose of hedging CADES' foreign exchange exposures.

Income and charges arising on forward financial instruments entered into for the purpose of hedging or managing the global interest rate exposure are recognised to profit or loss pro rata temporis.

Gains and losses on hedging designed to reduce the risk resulting from a particular asset or liability are taken to profit or loss and included under interest receivable and similar income or interest payable and similar charges to match income or charges recognised in respect of the hedged item.

As regards balancing cash payments arising from swaps entered into to hedge a debt instrument on inception, the portion covering issuance costs in respect of the underlying instrument is taken to profit and loss when the cash payment is recognised. This accounting method fairly reflects the asset value of issues transformed by entering into swaps involving cash payments and results in the amount equivalent to the issuance costs being recognised to profit and loss pro rata temporis.

## **11. Provisions**

No general provisions for liabilities and charges are recognised by CADES. When appropriate, provisions in respect of identified risks are set aside in accordance with applicable accounting principles.

## **12. Taxation**

CADES is not assessed to business taxes (corporation tax, value added tax and local business tax) or to apprenticeship tax. The only tax it pays is the payroll tax.

Note that profits on the sale of property transferred by the social security agencies did not give rise to the payment of corporation tax.

### **13. Counterparty risk**

CADES may be exposed to counterparty risk on only one type of transaction: forward market transactions. In this particular case, CADES has signed with all its counterparties AFB or FBF forward market agreements providing for daily or weekly margin calls depending on the counterparty and the agreement in place.

To manage its interest rate risk and eliminate currency and/or structural risk, CADES enters into transactions in the forward markets involving instruments such as interest rate swaps, currency swaps and asset swaps. CADES uses daily or weekly margin calls to minimise the residual risk on these instruments in the event of counterparty default.

### **14. Conflict in Ukraine**

In the current context concerning the situation in Ukraine and the consequences of the sanctions imposed on Russia, CADES is monitoring the possible impact on its activities and risks.

The central depositories designated under its various programmes are responsible for applying sanctions against Russia.

## NOTES

### BALANCE SHEET

At 31 December 2025, the balance sheet showed total assets of €10,581.14 million and total debt of €132,235.63 million, resulting in negative reserves of €121,722.88 million.

Provisions	(399.02)	(501.98)	(548.50)
Other debtors in respect of financial transactions	-	-	-
Other debtors in respect of operating charges	-	-	-
Other sundry debtors - CNAV	-	-	-
Gross amounts receivable	-	-	-
Provisions	-	-	-
<b>TOTAL</b>	<b>2,800.57</b>	<b>477.56</b>	<b>2,058.72</b>

Other assets comprise:

- deposits paid by way of initial margins for €2,675.30 million; and
- outstanding CRDS and CSG contributions and social levies to be collected by ACOSS amounting to €125.27 million. Provisions totalling €399.02 million have been deducted from the gross amounts receivable of €524.29 million.

As was the case in the 2024 financial year, the decrease in gross amounts receivable in 2025 is attributable in part to continued repayment of the deferrals of CSG and CRDS salary contributions granted during the COVID crisis and by a good unsolicited repayment rate.

Movements in provisions against outstanding CRDS and CSG contributions and social levies to be collected and in respect of ongoing disputes are detailed in the table below:

(€ millions)	At 31 December 2025	At 31 December 2024	At 31 December 2023
<b>PROVISIONS BROUGHT FORWARD</b>	<b>501.98</b>	<b>548.50</b>	<b>564.74</b>
Impact of accounting method changes	-	-	-
Provisions set aside - property	-	-	-
Provisions set aside - CRDS and CSG contributions and social levies	1.64	-	3.05
Provisions reversed - property	-	-	-
Provisions reversed - CRDS and CSG contributions and social levies	(104.60)	(46.52)	(19.29)
<b>PROVISIONS CARRIED FORWARD</b>	<b>399.02</b>	<b>501.98</b>	<b>548.50</b>

Given the economic climate this year, provisions for CRDS and CSG receivables not yet collected fell again compared with the previous financial year.

## **Note 4: Prepayments and accrued income**

(€ millions)	At 31 December 2025	At 31 December 2024	At 31 December 2023
<b>ACCRUED INCOME</b>	<b>2,046.72</b>	<b>2,054.84</b>	<b>2,048.45</b>
On forward interest rate instruments	-	7.48	19.41

Other	-	-	5.86
<b>TOTAL</b>	<b>2,376.63</b>	<b>6,434.26</b>	<b>3,795.32</b>

Prepayments and accrued income consist of transactions affecting the profit and loss account independently of the date on which the corresponding income is paid or collected. They include:

- accrued income relating to CRDS and CSG (€1,663.19 million) and foreign currency financial instruments (€382.69 million);
- issuance premiums on bonds and EMTN amounting to €241.92 million to be recognised in profit and loss over time;
- prepayments amounting to €87.98 million, which consist mainly of prepaid interest on the issue of negotiable debt instruments;

## LIABILITIES AND RESERVES

In respect of liabilities, a distinction is made between CADES' reserves and its other liabilities.

Reserves, which consist of the profit and loss account brought forward (€-138,117,21 million), the profit or loss for the year (€16,213.10 million) and the property endowment (€181.23 million), came to €-121,722.88 million.

The profit and loss account brought forward broke down as follows:

REFERENCE TEXT	DEBT TRANSFERRED TO CADES (€ millions)
Order No. 96-50 of 24 January 1996	(20,885.52)
Act No. 97-1164 of 19 December 1997	(13,263.06)

### Debts evidenced by securities are analysed below:

Debts evidenced by securities totalled €129,615.40 million and comprised negotiable debt securities totalling €7,595.75 million and bonds and similar instruments totalling €122,019.65 million.

Bonds and similar instruments are issued under a borrowing programme approved by the Minister of the Economy on 15 December 2017, and may be stand-alone or part of the following programmes:

- a French issuance programme for which the maximum amount of outstandings is €130 billion;
- a UK issuance programme for which the maximum amount of outstandings is €65 billion;
- a New York commercial paper issuance programme for which the maximum amount of outstandings is €60 billion;
- a French medium-term note (NEU MTN) issuance programme for which the maximum amount of outstandings is €10 billion;
- a French short-term note (NEU CP) issuance programme for which the maximum amount of outstandings is €20 billion;
- an Australian issuance programme for which the maximum amount of outstandings is AUD 6 billion.

All in all, at 31 December 2025 debts evidenced by securities maturing within one year totalled €29,127.54 million and by those maturing in more than five years €35,270.55 million, compared with €28,530.97 million and €48,024.46 million, respectively, at 31 December 2024. Debt due to mature at between one and five years fell from €70,640.70 million at 31 December 2024 to €65,217.31 million at 31 December 2025.

The table below details borrowings (in millions) by programme:

Programme	Issue date	Maturity Date	Nominal value (issue currency)	Currency	Nominal interest rate	ISIN
UK	25/01/2023	25/01/2026	4,000	USD	4.000%	XS2580310246

## Note 6a: Analysis of transactions in euros and foreign currencies before and after hedging

This note analyses the effect of hedging transactions on the initial debt and breaks down interest rates before and after hedging. It provides both accounting and financial information relating to the value and hedging of instruments at maturity.

In millions of euros and currencies	Initial debt		Hedging transactions		Final debt	
	Foreign currencies	Euros	Foreign currencies	Euros	Foreign currencies	Euros

<b>TOTAL</b>		<b>128,701</b>		<b>1,662</b>		<b>130,363</b>

The table above provides a breakdown of the initial nominal debt by issuance currency. Since all transactions in foreign currencies have been hedged, the debt of CADES is synthetically entirely in euro. Hedging transactions have enabled CADES to eliminate the impact of exchange rate fluctuations on its debt.

The table below shows the breakdown of CADES' debt by interest rate type. Hedging impacts the initial breakdown, such that in the final analysis, 83.96% of the debt bears fixed rates and 16.04% floating rates. CADES has not had any inflation-indexed debt since the CADESI loan was repaid in July 2024.

Other	-	-	-
<b>TOTAL</b>	<b>2,617.35</b>	<b>1,219.37</b>	<b>1,126.04</b>

Accruals and deferred income consist of transactions affecting the profit and loss account independently of the date on which the corresponding income is paid or collected.

They include notably:

- Accrued liabilities relating to CRDS and CSG (€1.42 million) and foreign currency transactions (€500.54 million);
- Balancing cash payments on currency swaps amounting to €53.86 million that are to be spread;
- Unearned income, corresponding to premiums on bond issues amounting to €77.03 million;
- foreign currency adjustment accounts amounting to €1,740.33 million, being technical accounts used to recognise to profit and loss adjustments arising on the measurement of off-balance sheet commitments.

### **Note 8a: Provision accounts**

Provisions for liabilities and charges include provisions for:

- redundancy indemnities;
- remuneration of days saved by CADES employees;
- the consequences of the European Court of Justice's Judgment of 26 February 2015 concerning the reimbursement by CADES of CRDS, CSG and social levy overpayments (see Note 14);
- provisions for liabilities and charges in respect of CSG and CRDS.

## PROFIT AND LOSS ACCOUNT

In arriving at the profit for the period, net banking income is reported separately from other operating income and charges.

Net banking income	(2,652.98)	(€ millions)
Exceptional income	-	(€ millions)
Other operating income and charges	18,866.05	(€ millions)
Net profit for the period	16,213.07	(€ millions)

CADES has been tasked with paying down the debt transferred to it. The profit for the year measures its capacity to reduce its own debt.

### Net banking income

Net banking income consists of the cost of debt, the income generated from cash positions and the net profit or loss on financial transactions.

#### **Note 9: Banking income**

<b>OTHER INTEREST PAYABLE AND SIMILAR CHARGES</b>	<b>-</b>	<b>126.65</b>	<b>156.89</b>
Net loss on hedging transactions	-	126.65	156.89
<b>TOTAL</b>	<b>3,014.85</b>	<b>3,421.60</b>	<b>2,989.34</b>

Interest payable and similar charges on CADES' debt, which amounted to €3,014.85 million, decreased by - 11.9% from 31 December 2024 and consists of:

- Charges amounting to €2,964.47 million in respect of debts;
- Interest amounting to €43.51 million on transactions with credit institutions, consisting of interest on private placements, margin calls and other exchange rate instruments;
- Fees amounting to €6.87 million.

The decrease in interest and similar charges, compared with 31 December 2024, was mainly due to the reduction in interest on negotiable securities denominated in foreign currencies. This reduction was due partly to a fall in the volume of commercial paper issued (−€3.7bn) and partly to a decline in the average interest rate on these transactions (4.6% in 2025 compared with 5.39% in 2024).

**Note 11: Gains and losses on trading securities**

<b>NET GAIN (LOSS) ON FOREIGN EXCHANGE TRANSACTIONS</b>	<b>(0.00)</b>	<b>0.00</b>	<b>0.01</b>
Other foreign exchange transactions	(0.00)	0.00	0.01

## Other operating income and charges

Other operating income and charges consist mainly of specific income and charges dealt with by Order No. 96-50 of 24 January 1996 (CRDS contributions, CSG, social levies on income from property and investments, payments from the Retirement Reserve Fund, property asset sales and payments to the State and social security funding organisations), general operating charges and depreciation, amortisation and impairment charges on non-current assets.

### **Note 12: CRDS revenues**

The table below details revenue allocated to CADES under Article 6 of Order No. 96-50 of 24 January 1996 after deducting assessment and collection costs and losses on outstanding CRDS contributions (write-offs, waivers, cancellations and debt forgiveness):

(€ millions)	At 31 December 2025	At 31 December 2024	At 31 December 2023
<b>NET CRDS REVENUES (Article 6)</b>	<b>9,301.30</b>	<b>9,193.78</b>	<b>8,848.33</b>
CRDS contributions levied on employment income and unemployment benefits	8,132.66	8,031.49	7,756.44
CRDS contributions levied on property assets	403.81	370.33	383.31
CRDS contributions levied on investment income	549.00	580.09	510.67
CRDS contributions levied on sales of gems and precious metals	11.24	7.49	6.05
CRDS contributions levied on gaming proceeds	204.58	204.38	191.86
CRDS exemption offsets (travel vouchers and voluntary community services)	-	-	-

CRDS revenues, net of collection costs, amounted to €9,301.30 million.

CRDS levied on taxable employment income, unemployment and similar benefits (which is mainly collected by ACOSS) represents 87.43% of the total. CRDS collected by the offices of the Directorate General of Public Finances and levied mainly on capital (property and investment income) represented 10.25%. CRDS on gaming winnings and the sale of precious metals represented 2.32% of the total.

## Note 12a

The table below provides a breakdown of income and charges relating to the CRDS at 31 December 2025.

(€ millions)				
CRDS REVENUES	(I)	CRDS COSTS	(II)	Net revenues (I-II)
CRDS on employment income and unemployment benefits	8,288.78	Write-offs, waivers, cancellation and debt forgiveness	116.90	<b>8,132.66</b>
		Assessment and collection costs	39.22

CRDS levied on gaming proceeds	205.60	Assessment and collection costs	1.03	<b>204.57</b>
CRDS exemption offsets (travel vouchers and voluntary community services)	-		-	-
Reversal of provisions on outstanding CRDS to be collected	76.28	Provisions on outstanding CRDS to be collected	0.87	<b>75.41</b>
<b>TOTAL</b>	<b>9,554.74</b>	<b>TOTAL</b>	<b>178.04</b>	<b>9 376.70</b>

### Note 12.1: CSG revenues

Supplementary social security contributions (*Contribution Sociale Généralisée* – CSG) are a resource allocated to CADES at the rate of 0.45% since 1 January 2024 for CSG on taxable employment income, unemployment and similar benefits, and income from property and investments, and at 0.22% for CSG on profits from gaming.

The tax base is similar to that of the CRDS, with the exception that no contributions are levied on the sale of gems and precious metals.

(€ millions)	At 31 December 2025	At 31 December 2024	At 31 December 2023
<b>NET CSG REVENUES (Article 6)</b>	<b>8,013.23</b>	<b>7,837.90</b>	<b>10,098.87</b>
CSG contributions levied on employment income and unemployment benefits	7,156.20	6,979.27	9,013.25
CSG contributions levied on property assets	348.52	323.45	460.68
CSG contributions levied on investment income	494.09	522.46	612.82
CSG contributions levied on gaming proceeds	14.41	12.72	12.12
CSG exemption offsets	-	-	-

CSG revenues, net of collection costs, amounted to €8,013.23 million.

CSG levied on taxable employment income, unemployment and similar benefits (which is mainly collected by ACOSS) represents 89.30% of the total. The remaining CSG is levied on investment income, profits from gaming and property income (10.70%).

### Note 12.1a

The table below provides a breakdown of income and charges relating to the CSG at 31 December 2025.

(€ millions)

CSG REVENUES	(I)	CSG COSTS	(II)	Net revenues (I-II)

### Note 12.2: Social levies on income from property and investments

Social levies on income from property and investments were a source of revenue allocated to CADES from 1 January 2011 under Act No. 2010-1594 of 20 December 2010 (pursuant to Articles 245-14 and 245-15 of the French Social Security Code). Since 1 January 2016, CADES no longer receives the 1.3% portion of these levies, but an additional 0.12% of CSG.

The following table essentially shows adjustments in 2025 to payments recognised in 2015.

(€ millions)

	At 31 December 2025	At 31 December 2024	At 31 December 2023
<b>NET REVENUE FROM SOCIAL LEVIES</b>	<b>0.02</b>	<b>(0.02)</b>	<b>(0.08)</b>

<b>TOTAL</b>	<b>2.53</b>	<b>2.30</b>	<b>1.99</b>

General operating charges correspond to expenditure falling within the scope of the administrative budget. They do not include the acquisition and the amortisation and depreciation of fixed assets (see Note 2).

### **List of staff positions at 31 December 2025**

#### Non-civil servant public sector employees:

- 1 senior front office manager (grade A)
- 1 assistant front office manager (grade A)
- 1 asset and liabilities matching strategist (grade A)
- 1 senior back office manager (grade A)
- 1 assistant back office manager (grade A)
- 1 communication officer (grade A)
- 1 internal control officer (grade A)

#### Civil servant employees:

- 1 administrative manager (grade A)

CADES has made available non-civil servant public sector employees to AFT since 1 September 2017 and has accordingly paid the corresponding salaries, employer charges and payroll taxes, which have then been reimbursed annually by the Directorate General of the Treasury (DGT). In accordance with the terms of the services framework agreement signed on 1 September 2017 by CADES and the DGT, these salaries are then rebilled to CADES.

CADES's administrative expenses came to €1.56 million for 2025 and comprised mainly operating costs paid directly by the Ministry of the Economy and Finance in respect of activities carried out by AFT on behalf of CADES, in accordance with the financial agreement of 22 November 2018, as well as statutory auditors' fees for the statutory audit of the 2025 financial statements in the amount of €65,091.88 excluding VAT.

**Note 14: Other non-banking operating charges**

(€ millions)	At 31 December 2025	At 31 December 2024	At 31 December 2023
Payments to the State	-	-	-
Provisions for sundry liabilities

## OFF-BALANCE SHEET COMMITMENTS

Off-balance sheet commitments distinguish between commitments given and commitments received and are analysed between loan commitments, guarantee obligations and guarantees on securities. Certain commitments are not recorded on the face of the accounts, being commitments in respect of currency transactions and forward financial instruments. Information regarding these commitments is provided in Notes 16 and 17 below.

### **Note 16: Currency transactions**

(€ millions)	At 31 December 2025		At 31 December 2024		At 31 December 2023

From 1 to 5 years	-	-	-	-	-	-
Over 5 years	-	-	-	-	-	-

Forward exchange contracts against euro correspond to forward purchases entered into for the purpose of hedging commercial paper denominated in foreign currencies. Forward exchange outstandings at 31 December 2025 came to €7,595.75 million.

The outstanding amount of currency swaps against the euro fell by €16.1 billion in the 2025 financial year. This decline was partly due to the fall in the outstanding amount of commercial paper issues (–€3.7 billion).

## Note 17: Forward financial instruments

. Multi-currency credit lines	-	-	-
. Credit lines in treasury bills	-	-	-
. Credit lines	-	-	-
<b>Other</b>			
. Retirement Reserve Fund (Fonds de Réserve pour les Retraites – FRR)	11,600.00	13,050.00	15,150.00
. Borrowings	-	-	-
. Commercial paper and securities lent under repurchase agreements	-	-	-
. ACOSS Exit Tax credits	337.90		
<b>Commitments given</b>			
Payments to the State	-	-	-
Payments to social security agencies	-	-	-
. Debt assumption provided for in Social Security Financing Act No. 2025-1403 of 30 December 2025	15,000.00	-	8,768.47
Financing commitments given under repurchase agreements, currency purchases and treasury bills	-	-	-

Commitments received consist of:

- Five activation agreements for credit lines enabling CADES to add funds directly to its euro-denominated deposit account held with Banque de France, totalling €1.3 billion and cancellable by the counterparties at 30 to 60 days' notice depending on the counterparty; and
- A total of €11.6 billion in payments from the Retirement Reserve Fund, corresponding to the annual payments of €1.45 billion for the period from 2026 to 2033, pursuant to Act No. 2020-992 of 7 August 2020 on social security debt and autonomy.
- Exit tax receivables. As a reminder, CADES is allocated a portion of the CSG and CRDS levies on the exit tax. The DGFIP has notified ACOSS of off-balance-sheet liabilities relating to social security contribution claims under the exit tax scheme, for which payment has been suspended. In the absence of detailed information broken down by type of levy (CSG, CRDS or social security contributions) and by reference period, ACOSS is unable to allocate these amounts accurately to the relevant recipients. However, a rough estimate of this breakdown has been carried out in order to assess the order of magnitude by recipient, and in this context, the amount of off-balance-sheet exit tax liabilities relating to CADES is estimated to be around €337.9 million.

Commitments given consist of:

- a debt assumption of €15 billion, provided for in the 2026 Social Security Financing Act (Act No. 2025-1403 of 30 December 2025), corresponding to the cumulative deficits from 2021 to 2024 of the old-age branch of the general social security scheme.

## OTHER INFORMATION

The table below provides information on market value, comparing the debt at repayment value as at 31 December 2025 with the debt at market value.

Debt at repayment value as at the closing date comprises the following elements:

- a. The nominal value of fixed rate, variable rate and adjustable rate borrowings in euros.
- b. The nominal value of the fixed rate, variable rate and adjustable rate euro legs of basis swaps representing perfect transformation of foreign currency-denominated borrowings into euro-denominated borrowings.
- c. The accrued nominal value of inflation indexed bonds as at 31 December 2025.
- d. Interest accrued but not yet due is excluded from debt at repayment value.

Debt at repayment value at maturity comprises the following elements:

- a. The nominal value of fixed rate, variable rate and adjustable rate borrowings in euro.
- b. The nominal value of the fixed rate, variable rate and adjustable rate euro legs of basis swaps representing perfect transformation of foreign currency-denominated borrowings into euro-denominated borrowings.
- c. The projected nominal value at maturity of inflation indexed bonds.
- d. The market value of swaps used for macro hedging.

Debt at market value comprises the following elements:

- a. The value of the fixed rate bonds and inflation indexed bonds based on the average market price on 31 December 2025.
- b. The value of unlisted securities issued by CADES obtained using the CADES zero-coupon curve as at 31 December 2025. Options embedded in certain of these securities are valued using an internal model based on standard valuation software developed and marketed by an independent service provider.
- c. The value of derivatives used to transform part of the debt through micro hedging. Options embedded in certain of these instruments are valued using the same internal model.
- d. The value of derivatives used for macro hedging.
- e. The present value at 31 December 2025 of collateral, repurchase agreements and bank balances.

(€ millions)	DEBT AT REPAYMENT VALUE		DEBT AT MARKET VALUE	MARKET VALUE OF HEDGING TRANSACTIONS
	At maturity	At 31 December 2025	At 31 December 2025	At 31 December 2025
Up to 1 year	20,597.44	20,597.44	20,630.76	564.63
From 1 to 5 years	66,456.86	66,456.86	65,976.40	1,651.93
Over 5 years	35,236.35	35,236.35	32,090.13	288.50
Swaps	-	-	-	-
<b>TOTAL</b>	<b>122,290.66</b>	<b>122,290.66</b>	<b>118,697.28</b>	<b>2,505.06</b>
Variable rate	12,841.85	12,841.85	12,765.05	546.32
Indexed rate	-	-	-	-
Fixed rate	109,448.81	109,448.81	105,932.23	1,958.75
Swaps	-	-	-	-
<b>TOTAL</b>	<b>122,290.66</b>	<b>122,290.66</b>	<b>118,697.28</b>	<b>2,505.06</b>

Compared with the previous financial year, the structure of debt at book value as at 31 December 2025 shows that the proportion of short-term debt has remained stable, the proportion of medium-term debt has increased, and the proportion of long-term debt has decreased:

DEBT	At 31 December 2025	At 31 December 2024	At 31 December 2023
Short term (< 1 year)	16.84%	16.84%	18.33%
Medium term	54.34%	49.40%	43.81%
Long-term (> 5 years)	28.81%	33.76%	37.86%

As regards the breakdown between issues denominated in euro and other currencies, in the year ended 31 December 2025 the proportion of euro-denominated debt increased (+3.5 pp) from 31 December 2024, as shown by the table below:

DEBT	At 31 December 2025	At 31 December 2024	At 31 December 2023
In foreign currencies	35.95%	39.44%	37.94%
In euros	64.05%	60.56%	62.06%

The table below, showing the structure of debt at book value after hedging, confirms the trend observed for the 2024 financial year, namely: an increase in the proportion of fixed-rate debt (+6.6 pp), a decrease in the proportion of adjustable-rate debt (-6.6 pp) and the absence of index-linked debt:

DEBT	At 31 December 2025	At 31 December 2024	At 31 December 2023
Variable rate	10.50%	17.13%	22.50%
Indexed rate	0.00%	0.00%	2.69%
Fixed rate	89.50%	82.87%	74.81%

Explanation of variances between market value and repayment value of debt:

The difference between the market value of the debt and its repayment value is explained by the following factors:

- The market value of fixed rate loans decreased because of the increase in interest rates;
- Market value factors in the present value of future coupons whereas repayment value excludes coupons;  
and
- Gains and losses on macro-hedging swaps impact market value one way or the other.

The above information covers a significant part of CADES' main activity, which is to repay in the best possible conditions the debt it raises on the financial markets.

## POST-BALANCE SHEET EVENTS

None.
