FRAMEWORK & MISSIONS

▶ The origin of social debt

- During the 1990s, the balance of the general social security system was permanently in negative territory. The succession of deficits led to the creation of a social debt...
- ...and the creation of CADES in 1996

▶ After the 2010 financial crisis

- The accounts of the basic social security schemes and the Elderly Solidarity Fund (FSV) had recovered since the economic and financial crisis of 2009 despite a long unfavourable economic environment by resolute control of expenditure.

▶ Covid-19: an unprecedented shock

- All branches of social security have been affected by this deterioration with considerable revenue losses linked to the deterioration of the economic situation and exceptional expenses to deal with the health crisis.
- The Illness branch accounts suffered from the most severe deterioration.

General Scheme and FSV balances evolution (in €bn)

General Regime = CNAM + CNAV + CNAF

(e) The estimated data for 2024 are taken from the Social Security Financing Act for 2024

- ▶ A French public administrative agency (« Etablissement Public français à caractère Administratif »), created in 1996, with two supervisory bodies:
 - Ministry in charge of Finance
 - Ministry in charge of Social Security

- ▶ Strong and balanced governance is exercised by a Board of Directors and a Supervisory board including members of the Parliament

- ▶ Benefiting from its own resources (€19.2 bn in 2024), CADES amortizes the accumulated debt of the general regime of social security

Change in social debt assumed vs. share of social debt assumed amortized (in € bn)

Deficits amortization in the illness, elderly and family branches of the
 general regime of social security, ACOSS and FSV

■ **Organic law**

- Postponement of the end date for the repayment of the social debt from 2024 to 2033
- Extension of resources to finance the transfer of social debt
- Any new transfer must be accompanied by an increase in revenue to contain the amortization period to 2033

■ **Ordinary law**

- CADES takes over 136 billion euros of social security debt

Breakdown of the €136 bn social security debt assumed by CADES (in €bn)

Accumulated deficits at 31/12/2019

- Illness branch of the general scheme: 16.2
- Elderly solidarity fund: 9.9
- Elderly branch of the self-employed agricultural scheme: 3.6
- National pension fund for local and municipalities employees: 1.3
